

BOLLARD PROTECTION SLEEVES

Never repair scratched, rusted or faded bollards again. Barrier bollard protection sleeves offer a quick, simple and economical way to recondition old rusted, faded or scratched bollards, without ever needing to remove, replace or re-paint again. For a fraction of the cost of replacement, you can rejuvenate your old bollards.

Barrier's new modular bollard protection sleeves and caps fit any standard 140mm or 90mm dia. bollards, regardless of whether they are ours or a competitor's.

The bollard protection sleeve can be made in any colour, so they are suitable for corporate or heritage environments. Ideal for shopping centres, car parks, schools and warehouses. Particularly useful in food processing facilities where chipped or flaking paint and powdercoat surfaces are a health hazard.

Can be washed down and are not affected by most chemicals or oils etc.

Sleeve modules

The 140mm diameter module is 300mm in length and 225mm for the 90mm diameter model. They are supplied with a class 1 self adhesive reflective band for increased night visibility. The modules can be grouped in single colours or alternating colours for additional safety awareness.

Eg. Yellow/black or red/white. Our bollard sleeves and caps offer economical long term indoor/outdoor protection and always look fresh.

Sleeve caps

These super tough polyethylene caps complete the installation of our bollard protection sleeves. The cap is secured in place which in turn prevents the sleeves from being removed.

Value features:

- » Fits any 90mm or 140mm dia. bollards.
- » Quick, simple and economical to install.
- » Only basic tools required.
- » Four standard colours can be mixed and matched.
- » Made from hi-impact polyethylene.
- » U.V. stabilised. Won't fade, rot, rust or peel.
- » Each module supplied with class 1 reflective band.
- » Never paint again.

Never have to repair

LEGEND

AUSTRALIAN CONTENT

This product has been designed, developed and is either completely or substantially manufactured in Australia. (The minimum Australian content is between 50 and 100%).

NEW AND UNIQUE

This is a new and unique product. It has either been designed, developed and manufactured by the Barrier Group Pty. Ltd. or it is being seen here for the first time.

100% RECYCLABLE

This product is manufactured from virgin grade raw materials and is 100% recyclable using existing, readily available recycling technology and services.

RECYCLED MATERIALS

This product has been manufactured from either a combination of recycled materials and virgin grade materials or entirely from recycled materials.

HOT DIP GALVANISED

This product has been hot dip galvanised prior to any surface coatings being applied. Hot dip galvanised offers vastly improved corrosion protection and extended life in harsh environments.

FIXINGS INCLUDED

This product comes complete with all the necessary fixings to complete the standard installation. When comparing competitors prices against our own, always ensure they have included the fixings with the product (excludes gravel spikes).

5 YEAR WARRANTY

This product carries a 5 year limited warranty against structural failure due to faulty materials or workmanship in our manufactured products, OR structural failure and major fading due to U.V. degradation in our injection moulded products.

(For full conditions visit www.barriergroup.com.au).

WARNING
