

NEATA FIXED PLAIN POST

Neata plain posts are designed to complement the other posts in the Neata QMS. They are a fixed, stand-alone design with no belt or rope attachments.

A typical application for plain posts would be at the entrance to escalators to prevent the entry of trolleys or prams etc.

All posts in the Neata QMS are manufactured from high quality stainless steel with a 1.6mm thick wall. The fixed posts include our unique built-in impact absorbing feature. This allows them to tilt up to 10° on impact and return to their original position.

The unique in-ground sleeves mean the posts can be deployed, removed or repositioned by staff at any time while remaining tamper resistant to the public.

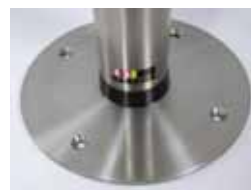

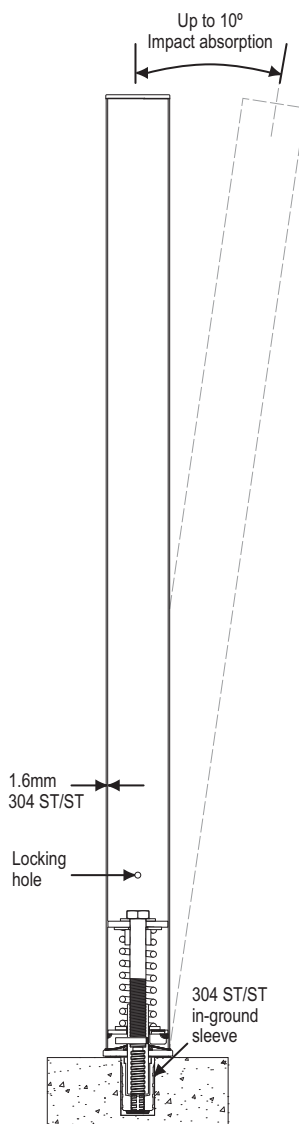

The elimination of conventional bases means Neata fixed posts have a tiny footprint (65mm diameter). This in turn reduces tripping hazards and increases access by up to 30%.

Value features:

- » In-floor tamper-proof design for improved safety.
- » Streamlined design with no bulky bases.
- » Posts stay where you need them.
- » Simple to remove or reposition at any time.
- » When removed the floor is left flush and capped.
- » Impact absorbing design.
- » High quality 304 grade stainless steel construction.
- » Reduced tripping or traffic hazard.
- » Aesthetically compatible with other Neata posts.
- » Vastly improved wheelchair and stroller access.
- » One locking tool included per order.

Specifications:

Description:	Neata QMS fixed plain post.
Material:	304 grade stainless steel post and in-ground sleeve.
Height:	970mm to top of post.
Diameter:	Post 63.5mm x 1.6mm thick. In-ground sleeve 35mm x 60mm deep.

LEGEND

AUSTRALIAN CONTENT

This product has been designed, developed and is either completely or substantially manufactured in Australia. (The minimum Australian content is between 50 and 100%).

NEW AND UNIQUE

This is a new and unique product. It has either been designed, developed and manufactured by the Barrier Group Pty. Ltd. or it is being seen here for the first time.

100% RECYCLABLE

This product is manufactured from virgin grade raw materials and is 100% recyclable using existing, readily available recycling technology and services.

RECYCLED MATERIALS

This product has been manufactured from either a combination of recycled materials and virgin grade materials or entirely from recycled materials.

HOT DIP GALVANISED

This product has been hot dip galvanised prior to any surface coatings being applied. Hot dip galvanised offers vastly improved corrosion protection and extended life in harsh environments.

FIXINGS INCLUDED

This product comes complete with all the necessary fixings to complete the standard installation. When comparing competitors prices against our own, always ensure they have included the fixings with the product (excludes gravel spikes).

5 YEAR WARRANTY

This product carries a 5 year limited warranty against structural failure due to faulty materials or workmanship in our manufactured products, OR structural failure and major fading due to U.V. degradation in our injection moulded products.
