

**CORNER PROTECTORS**

Prevent damage to both vehicles and buildings, particularly in building basements where space is often restricted. Corner protectors are ideal in loading docks. Made from recycled rubber with reflective panels.

**Value Features:**

- » Reduces damage to vehicles and buildings.
- » Economical solution, simple to install.
- » Complete with reflective panels for increased visibility.

PART No.	DESCRIPTION
CP1080R	Corner protector 100 x 100 x 800mm long
CP1280R	Corner protector 140 x 140 x 800mm long

**DOCKING BUMPERS**

Heavy duty docking bumper. Suitable for loading bays and jetties etc. Manufactured from hard wearing EPDM blended rubber compound. Available in 2 lengths 1000mm & 300mm as standard or can be cut to any desired length and drilled as required.

**Value Features:**

- » Heavy duty rubber in 1000mm & 300mm lengths.
- » Can be cut to length and drilled.
- » Reduces damage to vehicles and buildings.

PART No.	DESCRIPTION
DR300	Dock bumper 90 x 110 x 300mm long (2.3kgs)
DR1000	Dock bumper 90 x 110 x 1000mm long (7.5kgs)

**FLEXIBLE SIGN POSTS**

Fibreglass Reinforced Plastic (FRP) is an engineered composite material that combines strength, flexibility, solid colour and light weight with the ability to absorb minor impacts. On heavy impacts the FRP posts act like a frangible post, by shearing off and reducing the risk to vehicles and humans. Using 50mm diameter FRP posts with our double sided aluminium sign brackets allows simple installation.

**Value Features:**

- » Non corrosive and low electrical conductivity.
- » Strength with flexibility and light weight.
- » Lengths up to 5 metres.

FRP flexible post.

FRPSB.

FRPBF.

PART No.	DESCRIPTION
FRP50-Y	FRP tube 50 O.D. x 40 I.D. per metre – Yellow
FRPBF	Surface mount base flange for FRP
FRPSB	50mm double sided sign bracket
