

SECTION 5.11.3

COLLAPSIBLE CONES – Rubber base

A very high quality, durable collapsible cone suitable for emergency or maintenance work. Heavy rubber base adds improved wind resistance and durability. Internal R-way light is powered by 2 standard AAA batteries (included). Includes built-in reflective collars. Total weight 4kgs.

Value features:

- » Collapses from 720mm tall to 60mm.
- » Very stable in high winds.
- » In-built light can be set to flash or constant.
- » Powered by standard AAA batteries.
- » Very durable design.

PART No.	DESCRIPTION
BTC720C-RB	Collapsible cone with rubber base 720mm high

SECTION 5.11.4

RETRACTABLE CONE BAR

A durable, lightweight retractable or extendable cone bar for temporary barricading applications. Made from tough ABS plastic with rubberized loops at each end and reflective bands for enhanced visibility. Reflective yellow with black.

Value features:

- » Durable and lightweight.
- » Extends from 1.2 to 2 metres.
- » Yellow and black bands.
- » Fits all standard cones.
- » Extendable cone bar.

RCB2.

PART No.	DESCRIPTION
RCB2	Retractable cone bar

SECTION 5.12.1

FLEXIBLE BOLLARDS – One Piece Flexi

A highly visible flexible polyurethane bollard that is virtually indestructible. Bright orange finish with reflective bands for increased night visibility. Use for lane delineation or identifying hazards, particularly in tight driving situations such as car parks etc.

Value features:

- » Durable one piece moulding.
- » Virtually indestructible (will not break or split).
- » Rebounds after impact.
- » Built in reflective bands.
- » Available in 2 handy sizes.

FBP800 shown.

This flexible bollard will not break or split under impact.

PART No.	DESCRIPTION
FBP450	Plastic flex bollard 80 x 450mm
FBP800	Plastic flex bollard 80 x 800mm

SECTION 5.12.2

FLEXIBLE BOLLARDS – Two piece knockdown

Knock down bollard with an elasticised joint for temporary or permanent delineator applications. Removable bollard post twist-locks into base. Post comes with reflective bands. The bollard is manufactured from fluorescent orange polyethylene. The rubber base is easily installed with epoxy or masonry anchors.

Value features:

- » Soft, lightweight bollard takes the knocks without causing damage to vehicles.
- » Strong elasticised joint ensures bollard returns to upright position.
- » Bollard can be removed from base.
- » Reflective bands for greater night time visibility.

PART No.	DESCRIPTION
KDB1000	Knockdown bollard 100 x 1000mm
KDB1000B	Replacement base (no top)
KDB1000T	Replacement bollard top (no base)

FLEX BOLLARD

– Two piece with chain loop

A two piece knock down bollard with an elasticised joint for temporary or permanent delineator applications.

The removable bollard post twist locks into the rubber base. The post is supplied with a highly visible reflective band. The bollard is manufactured from tough red polyethylene, it stands 800mm high and incorporates a moulded chain ring to accept our range of high strength plastic chain in a range of colours.

Value features:

- » Two piece design with reflective band.
- » Elasticised joint ensures bollard returns to upright position.
- » Bollard can be removed from base if required.
- » Moulded chain rings accept a range of ropes or chain.

Moulded chain loop.

800mm high with hi-viz reflective band.

Two piece design with spring return.

SEE OTHER PRODUCTS to view our range of chains.

PART No.	DESCRIPTION
FB800R	Flexible bollard with chain loop

LEGEND

AUSTRALIAN CONTENT

This product has been designed, developed and is either completely or substantially manufactured in Australia. (The minimum Australian content is between 50 and 100%).

NEW AND UNIQUE

This is a new and unique product. It has either been designed, developed and manufactured by the Barrier Group Pty. Ltd. or it is being seen here for the first time.

100% RECYCLABLE

This product is manufactured from virgin grade raw materials and is 100% recyclable using existing, readily available recycling technology and services.

RECYCLED MATERIALS

This product has been manufactured from either a combination of recycled materials and virgin grade materials or entirely from recycled materials.

HOT DIP GALVANISED

This product has been hot dip galvanised prior to any surface coatings being applied. Hot dip galvanised offers vastly improved corrosion protection and extended life in harsh environments.

FIXINGS INCLUDED

This product comes complete with all the necessary fixings to complete the standard installation. When comparing competitors prices against our own, always ensure they have included the fixings with the product (excludes gravel spikes).

5 YEAR WARRANTY

This product carries a 5 year limited warranty against structural failure due to faulty materials or workmanship in our manufactured products, OR structural failure and major fading due to U.V. degradation in our injection moulded products.

(For full conditions visit www.barriergroup.com.au).
