

CAR PARK SIGNS

While we are not pretending to be a sign company, we do carry a small range of signs which relate to specific products in our range. Our signs consist of Class 1 or Class 2 grade reflective sheeting pressure laminated to 2mm aluminium sheet and are pre-punched to accept mounting brackets.

S1000-RA – Aluminium sign with class 1 reflective face 600 x 600mm.

S1001-RA – Aluminium sign with class 1 reflective face 600 x 600mm.

S1005-RA – Aluminium sign with class 1 reflective face 600 x 600mm.

FLEXIBLE SIGN POSTS

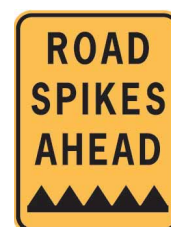

NEW Fibreglass reinforced plastic (FRP) posts offer amazing strength with a degree of flexibility. This is particularly useful if installing signs into environments where they are likely to be subjected to abuse or low speed impacts such as in car parks etc. Available in any length up to 5 metres. They are 50mm in diameter with a 5mm thick wall and solid high viz yellow colour.

S1007-RA – Aluminium sign with class 1 reflective face 600 dia.

S1018-RA – Aluminium sign with class 1 reflective face 450 x 450mm.

S1019-RA – Aluminium sign with class 2 reflective face 450 x 600mm.

GALVANISED SIGN POSTS

Choose from four standard lengths of 60mm diameter sign posts plus sign mounting brackets, caps and surface mount flanges to complete your installation.

S1022-RA – Aluminium sign with class 1 reflective face 450 x 600mm.

S1169-RA – Aluminium sign with class 1 reflective face 450 x 600mm.

S1155-RA – Aluminium sign with class 1 reflective face 600 x 600mm.

AWARENESS SIGN KIT

Part number BRSKIT is a prepackaged sign kit for use with our *Blade Runner* one way access spikes. The kit allows for an economical alternative to purchasing all the components separately. It comprises 1 each of S1018RA & S1019RA signs in class 2 reflective and all of the necessary mounting hardware to complete the installation of the signs.
