LOK-UP (No Parking or No Entry)

Lok-up is a collapsible steel parking and vehicle access barrier that locks in both the up and down positions. Steel construction and large footprint ensure maximum strength and durability. The minimum closed height of 35mm opens up to a working height of 750mm. A large reflective sign face and safety yellow powder coated finish provide maximum visibility day or night.

Value features:

- » Available in 2 different models.
- » Zinc plate and safety yellow powder coat.
- » It stands tall when locked up. 750mm tall.
- » It lays low when locked down. 35mm low.
- » Comes complete with padlock and fixings.
- » Large footprint for strong positive mounting into concrete or asphalt.
- » Reflective sign face for night visibility.
- » Locks in both the up and down positions.

FOLD DOWN BOLLARD

Our Fold Down Bollard model FD150 has been designed for applications such as vehicle access control and parking space protection. When laying flat, the FD150 is only 80mm high allowing sufficient vehicle clearance.

When upright, it stands 800mm high with a broad face of 150mm wide for greater visibility. This broad face includes a reflective sign face.

Available as a surface mount model or can be used with an in-ground kit (BGK4) for setting into new concrete.

Now available in either padlock or key lockable models.

Value features:

- » Stands 800mm tall when locked up.
- » Only 80mm high in the lay flat position.
- » Available in surface mount or used with concrete footing kit.
- » Padlock lockable model includes fixings and padlock.
- » Key lockable model includes fixings and two keys.
- » Hot dip galvanised and finished in high visibility safety yellow powder coat.
- » Broad 150mm face includes reflective sign face.

Now hot dip galvanised.

LEGEND

AUSTRALIAN CONTENT

This product has been designed, developed and is either completely or substantially manufactured in Australia. (The minimum Australian content is between 50 and 100%).

NEW AND UNIQUE

This is a new and unique product. It has either been designed, developed and manufactured by the Barrier Group Pty. Ltd. or it is being seen here for the first time.

100% RECYCLABLE

This product is manufactured from virgin grade raw materials and is 100% recyclable using existing, readily available recycling technology and services.

RECYCLED MATERIALS

This product has been manufactured from either a combination of recycled materials and virgin grade materials or entirely from recycled materials.

HOT DIP GALVANISED

This product has been hot dip galvanised prior to any surface coatings being applied. Hot dip galvanised offers vastly improved corrosion protection and extended life in harsh environments.

FIXINGS INCLUDED

This product comes complete with all the necessary fixings to complete the standard installation. When comparing competitors prices against our own, always ensure they have included the fixings with the product (excludes gravel spikes).

5 YEAR WARRANTY

This product carries a 5 year limited warranty against structural failure due to faulty materials or workmanship in our manufactured products, OR structural failure and major fading due to U.V. degradation in our injection moulded products.
