

PORT-A-GUARD MAXI

With a standard opening of 6.7 metres, the Maxi takes the Port-a-guard range to a new level of versatility.

With an increased height, reduced gap between the floor and the bottom of the barrier and smaller opening size between the slats, the Maxi offers an even greater level of security and safety.

A combination of aluminium slats, galvanised slide components and stainless steel fixings means the Maxi is suited to both indoor or outdoor applications. The maxi now has locking castors as standard.

Value features:

- » Complete with heavy duty locking castors.
- » Non-corrosive construction for outdoor use.
- » Increased safety and security due to reduced opening sizes.
- » Can be linked together to form a continuous barrier.
- » Easily transported by one person.

Specifications

| | |
|-----------------------|--|
| Description: | Portable expanding barrier. |
| Material: | Slats & posts – extruded aluminium. Slide guides – Hot dipped galvanised steel. Assembly fittings – Stainless steel. |
| Finish: | Natural aluminium. |

LEGEND

AUSTRALIAN CONTENT

This product has been designed, developed and is either completely or substantially manufactured in Australia. (The minimum Australian content is between 50 and 100%).

NEW AND UNIQUE

This is a new and unique product. It has either been designed, developed and manufactured by the Barrier Group Pty. Ltd. or it is being seen here for the first time.

100% RECYCLABLE

This product is manufactured from virgin grade raw materials and is 100% recyclable using existing, readily available recycling technology and services.

RECYCLED MATERIALS

This product has been manufactured from either a combination of recycled materials and virgin grade materials or entirely from recycled materials.

HOT DIP GALVANISED

This product has been hot dip galvanised prior to any surface coatings being applied. Hot dip galvanised offers vastly improved corrosion protection and extended life in harsh environments.

FIXINGS INCLUDED

This product comes complete with all the necessary fixings to complete the standard installation. When comparing competitors prices against our own, always ensure they have included the fixings with the product (excludes gravel spikes).

5 YEAR WARRANTY

This product carries a 5 year limited warranty against structural failure due to faulty materials or workmanship in our manufactured products, OR structural failure and major fading due to U.V. degradation in our injection moulded products.
