

## SKIPPER – 9 metre retractable tape barrier

Skipper™ is a unique, purpose designed approach to traffic and facilities management. It allows you to cordon off hazardous or restricted areas indoors or outside quickly and cost effectively. Skipper's fully retractable 9 metre tape enables all areas to be closed off using standard weighted-base cones or UPVC posts.

Simply fit Skipper over the top of your cone or post or, if you wish, Skipper can be screwed to the cone for greater security. Alternatively, using our optional wall mount bracket, Skipper can be used to block doorways, close off aisles in warehouses or anywhere that requires a fixed barrier.

Also available is a switchable warning light with built-in daylight sensor.

### Value features:
