SECTION 8.4.2

ANTI SLIP FRP

FRP Anti Slip stair nosing, panel and ladder rungs are pre-finished, ready to install safety products designed to prevent slip accidents in the most harsh and extreme conditions.

Manufactured from a composite fibreglass they are easily fitted over existing steps, ladder and walkways to create the toughest and most durable safety solution available.

Why Fibreglass (FRP) is better

Produced in a one-step manufacturing process where a colour pigmented, fire retardant resin is interspersed with layers of immensely strong interwoven glass fibre.

A diamond hard fused alumina anti-slip grain is forced under pressure into the base mix while it is still wet.

A final resin layer laid over the top completes the entire composite mix before being oven cured until fully set.

Value features:

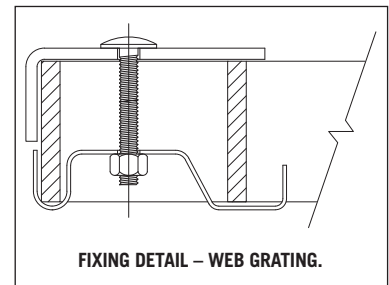

- » Won't chip or delaminate.
- » No steel to corrode or rust.
- » Dimensionally stable in all temperatures.
- » Highly resistant to chemical attack.
- » Available in a wide range of sizes.
- » Manufactured in Australia.

LEGEND

AUSTRALIAN CONTENT

This product has been designed, developed and is either completely or substantially manufactured in Australia. (The minimum Australian content is between 50 and 100%).

NEW AND UNIQUE

This is a new and unique product. It has either been designed, developed and manufactured by the Barrier Group Pty. Ltd. or it is being seen here for the first time.

100% RECYCLABLE

This product is manufactured from virgin grade raw materials and is 100% recyclable using existing, readily available recycling technology and services.

RECYCLED MATERIALS

This product has been manufactured from either a combination of recycled materials and virgin grade materials or entirely from recycled materials.

HOT DIP GALVANISED

This product has been hot dip galvanised prior to any surface coatings being applied. Hot dip galvanised offers vastly improved corrosion protection and extended life in harsh environments.

FIXINGS INCLUDED

This product comes complete with all the necessary fixings to complete the standard installation. When comparing competitors prices against our own, always ensure they have included the fixings with the product (excludes gravel spikes).

5 YEAR WARRANTY

This product carries a 5 year limited warranty against structural failure due to faulty materials or workmanship in our manufactured products, OR structural failure and major fading due to U.V. degradation in our injection moulded products.
