

## PARK SENTRY®

### Features:

- Bump-N-Go protection for square and round car park columns.
- **Superior material protects vehicles and columns.**
- Made of ARPRO®, a high tech material specifically engineered to absorb impact.
- Oil, chemical, water and flame resistant and 100% recyclable.
- Thin design virtually adds space to parking structures – vehicles can now park closer to columns.
- Can be customized to fit around any square or round column, pole, pipe or curb.
- Specially designed flat panels give progressive resistance, offering soft protection for slight bumps, and more resistance when needed to absorb harder collisions.
- Extra thickness at corners to resist damage at the most vulnerable spots (square models).
- Hides and protects damaged columns and walls without an expensive paint job.
- Seamless design modernizes the look of any garage.
- Extensions available for larger walls and columns.

**Material:** Specifically engineered ARPRO® material.

**Finish:** Yellow.

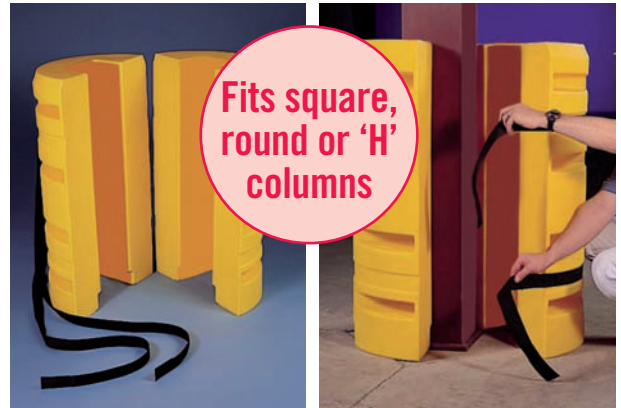

**Column size:** Square kit perfectly fits 610 x 610mm column (can be cut to fit custom size). Round kit wraps exactly around 610mm diameter column.

**Height:** 1 metre.

**Weight:** 5kgs (approx.)

**Installation:** One person installation (straps included).

PART No.	DESCRIPTION
PSSQ-Y-KIT	Park Sentry – Square kit (4 panels and 2 straps)
PSSQ-Y-COR	Park Sentry – Additional Square corner (1 unit)
PSSQ-Y-PAN	Park Sentry – Additional Square panel (1 panel)
PSRD-Y-KIT	Park Sentry – Round kit (3 panels and 2 straps)
PSRD-Y-PAN	Park Sentry – Additional Round panel (1 panel)
PSS-4000-BR	Park Sentry – Additional straps

## COLUMN SENTRY®

### Features:

- Absorbs impacts by surrounding your columns with a unique cushion of air.
- Moulded from high impact polyethylene in bright Yellow with contrasting Black straps.
- Air vent system allows air to escape during impact, allowing the column protector to absorb impact and then return to its original form.
- Available in a range of standard sizes that fit common column sizes.
- Unique design protects square, round or 'H' shaped columns.
- One person can install and remove for maintenance in seconds.
- U.V. stabilised for indoor or outdoor use.
- Surprisingly cost-effective and maintenance free.
- Extremely versatile and durable.
- Chemical resistant, non-conductive and waterproof.

**Material:** Low-density polyethylene.

**Finish:** Solid colour Yellow.

**Weight:** 10kgs up to 41kgs.

**Installation:** Simple one person installation, no tools.

PART No.	DESCRIPTION
CS60107-20S	To suit columns up to 200mm x 200mm or 200mm diameter Overall size 600mm dia. x 1070mm high
CS60107-25S	To suit columns up to 250mm x 250mm or 250mm diameter Overall size 600mm dia. x 1070mm high
CS60107-30S	To suit columns up to 300mm x 300mm or 300mm diameter Overall size 600mm dia. x 1070mm high
CS84107-35S	To suit columns up to 350mm x 350mm or 350mm diameter Overall size 840mm dia. x 1070mm high
CS84107-41S	To suit columns up to 410mm x 410mm or 410mm diameter Overall size 840mm dia. x 1070mm high
