

ROUND BOLLARDS Stainless Steel

316
Marine grade
polished
stainless
steel

Our round stainless steel bollards are available in below ground, core drilled or surface mount for bolted installations. Manufactured from marine grade 316 stainless steel these bollards are all finished with No. 4 mechanical finish. 316 grade is recommended for installation near coastal areas to minimise the risk of tea staining and to ensure the bollards maintain a high quality appearance over many years. Polished stainless steel skirts are available as an option to cover the base plates and fixings, as well as optional stainless steel chain ring kits.

Features:

- Ideal for high-end architectural applications.
- 316 grade polished stainless steel.
- Available in 90 or 140mm surface mount, new concrete or core drilled models.
- Machined flat cap.
- Optional cover skirts and chain ring kits available.

BELOW GROUND (BG), SURFACE MOUNT (SM) AND CORE DRILLED (CD)

PART No.	A (mm)	B (mm)	C (mm)	D (mm)	E (mm)	F (mm)	Stainless Grade	Weight (kg)
