

Comes standard with locking castors

## PORT-A-GUARD MAXI Expandable Barriers

### Features:

- 6.7 or 7.8 metre models available.
- Complete with four heavy duty locking swivel castors (75mm diameter) and central fixed dolly wheels.
- Non-corrosive construction suited to both indoor and outdoor use.
- Aluminium slats, galvanised slide components and stainless steel fixings
- Increased safety and security due to reduced opening sizes.
- Can be linked together to form a continuous heavy duty barrier.
- Easily transported by one person.
- Castors improve ease of handling between locations.
- Can be wall mounted at one end using the optional wall receiver bracket and rolled out as required with minimal effort.

**Weight:** BPG300 – 5.7kgs (boxed). BPG600 – 9.8kgs (boxed).

#### 3 METRE KIT CONTAINS:

- A. 1 x Port-a-guard 3 metre body
- B. 2 x Moulded feet
- C. 3 x Wall/Sign mounting brackets
- D. 1 x Wall receiver bracket
- E. 1 x 12 page user guide

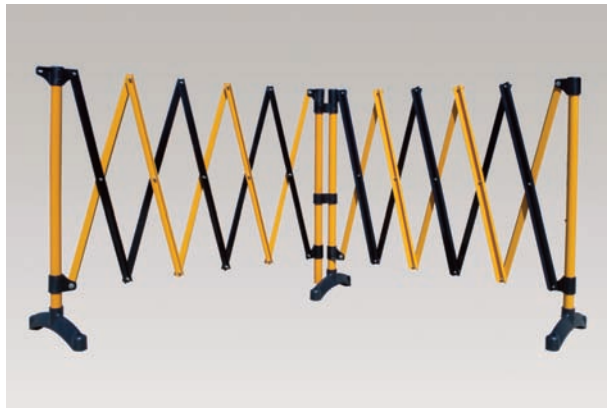

#### 6 METRE KIT CONTAINS:

- A. 1 x Port-a-guard 6 metre body
- B. 3 x Moulded feet
- C. 3 x Wall/Sign mounting brackets
- D. 1 x Wall receiver bracket
- E. 1 x 12 page user guide

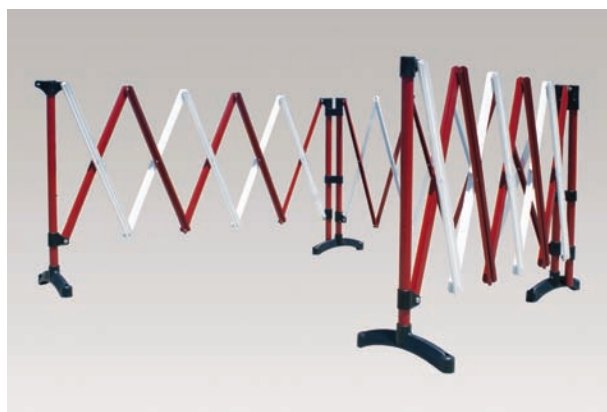

PART No.	DESCRIPTION
BPG2RW	Port-a-guard Flexi expanding barrier 2 x 2.7 metre – Red/White
BPG2BY	Port-a-guard Flexi expanding barrier 2 x 2.7 metre – Black/Yellow

## PORT-A-GUARD FLEXI Expandable Barriers

### Features:

- Ability to expand out to 5.4 metres.
- Pivots at the middle through 270 degrees.
- Can step up to 300mm for changing floor levels.
- Available in Red/White or Black/Yellow.
- Made from powder coated aluminium and high-tech plastics.
- Compact design weighs 9.2kgs.
- Width when closed 300mm.
- Width when fully extended 2 x 2700mm.
- Spare parts and accessories available.
- Free wall receiver and sign brackets.

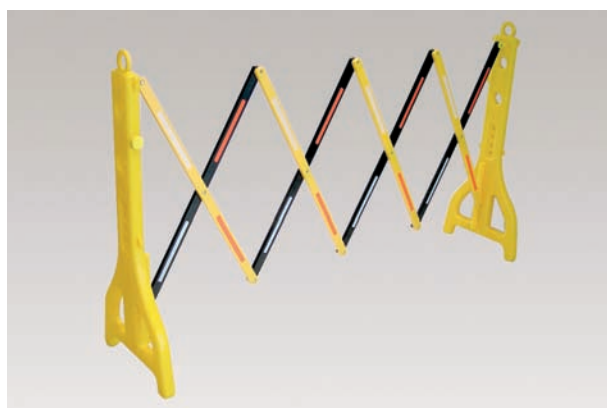

PART No.	DESCRIPTION
BPG6RW	Port-a-guard Utility expanding barrier 3 x 2.6 metre – Red/White
BPG6BY	Port-a-guard Utility expanding barrier 3 x 2.6 metre – Black/Yellow

## PORT-A-GUARD UTILITY Expandable Barriers

### Features:

- Consists of three sides that can each expand out to 2.6 metres.
- Available in Red/White or Black/Yellow.
- Compact design weighs 17kgs.
- Width when closed 360mm.
- Width when fully extended 3 x 2600mm.
- Designed for cordoning off small spaces.
- Made from powder coated aluminium and high-tech plastics.
- Spare parts and accessories available.
- Supplied with free wall receiver and sign brackets.

PART No.	DESCRIPTION
BPGL8BY	Port-a-guard Light expanding barrier 2.4 metre – Black/Yellow

## PORT-A-GUARD LIGHT Expandable Barriers

### Features:

- Compact and lightweight design weighs 3kgs.
- Finished in Black/Yellow plastic.
- Width when closed is 250mm and 2400mm when fully extended. Height 970mm.
- Suitable for both indoor and outdoor use.
- A built-in handle and locking strap simplifies handling and portability.
- The plastic slats and legs are corrosion resistant, durable and lightweight.
- The legs can be filled with water, adding weight for extra stability.

## MOUNTING POST

A freestanding surface mounted post for BPG300 and BPG600 models where it is necessary to fix the Port-a-guard in position but there is no structure to mount it to. Made from powder coated steel and includes fixings to accept the wall receiver brackets (supplied). The mounting post is also compatible with expandable barriers using castors.

PART No.	DESCRIPTION
BPG29SM	Optional Port-a-guard mounting post

## WALL RECEIVER BRACKET

The wall receiver bracket is fixed to a wall or post and allows the Port-a-guard to be retained in any location. Alternatively, when used with an extended wall mounted Port-a-guard, it allows you to close off an area to prevent access.

Note: Padlock not included.

PART No.	DESCRIPTION
BPG-WR2	Additional wall receiver bracket

## LOCKING CASTORS

Optional locking castors improve the mobility of your Port-a-guard. They (BPG-LC) can be quickly retrofitted to all Port-a-guard plastic feet. Alternatively where space is at a premium the foot can be removed from the free post of a wall mounted Port-a-guard and replaced with a single (BPG-LPC) post mount locking castor.

PART No.	DESCRIPTION
BPG-LC	Optional locking castor
BPG-LPC	Locking castor for single post

## POST WEIGHT

A 1.5kg steel weight for use with Port-a-guards used in windy outdoor environments. The weight simply slips inside the bottom of the Port-a-guard post creating a low centre of gravity for improved stability, the weight is held in place by the post foot. Made from zinc plated steel.

PART No.	DESCRIPTION
BPG93	Optional leg weight (1.5kgs)

## SIGN POCKETS

Sign Pockets are double-sided folded acrylic panels that can receive A4 or A5 signs from any office printer. They are attached to the wall/sign receiver bracket which in turn is fitted into the top of the Port-a-guard post.

PART No.	DESCRIPTION
BPG-A4SH	Optional A4 sign pocket
BPG-A5SH	Optional A5 sign pocket
BPG-WSB	Additional sign mounting bracket

## FREE PRINTABLE SIGNS

Purchase our optional A4 or A5 sign holder pockets and print out your own sign faces or customised message on any office printer for FREE and never pay for signs again.
